- Assembly Line Cooking: Streamlined processes akin to manufacturing, with dedicated stations for grilling, assembly, and serving.
- Self-Service Model: Emphasized customer independence and efficiency, minimizing staff requirements.

While the brothers? original operation was locally successful, it was Ray Kroc?s vision that would transform this small restaurant into a global empire.

Ray Kroc?s Entry and the Franchising Vision

Ray Kroc, a Multimixer milkshake machine salesman, encountered the McDonald brothers? restaurant in 1954. Impressed by their efficient system, he saw potential beyond a single location. Recognizing the scalability of their concept, Kroc proposed franchising the restaurant model nationwide.

In 1955, Kroc founded McDonald's System, Inc., which later became the McDonald's Corporation. His aggressive focus on:

- Standardization: Ensuring every franchise adhered strictly to the original system.
- Franchise Model: Rapid expansion through local ownership while maintaining control over quality and branding.
- Real Estate Strategy: Kroc?s innovative approach was to own the land and lease it to franchisees, generating ongoing revenue and exerting greater control.

Kroc?s relentless drive and vision for a standardized, efficient operation laid the foundation for what would become the world?s most recognizable brand.
